EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/22/2007, including amendments to the claims and specification, has been entered.

Rejoinder

1. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 7-12, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

The finally allowed claims are claims 1, and 4-12.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 1/26/2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sandra Wells on 8/8/2007.

The application has been amended as follows:

In the claims:

Claim 1 has been replaced with the following:

An array comprising a plurality of nucleic acid probes, wherein the plurality comprises each of the sequences listed in SEQ ID Nos. 1-699,466, and wherein each probe in the plurality of nucleic acid probes consists of one of the sequences listed in SEQ ID Nos. 1-699,466.

In claim 7, lines 6 and 7 have been replaced with the following:

detecting hybridization pattern of the labeled nucleic acid to the probes on the array.

Claim 8 has been replaced with the following:

The method of claim 7 further comprising comparing hybridization patterns between nucleic acid derived from two or more different samples.

In line 2 of claim 10, the word "the" has been deleted from before the word "target".

Art Unit: 1634

In line 2 of claim 11, the word "the" has been deleted from before the word "target".

3. The following is an examiner's statement of reasons for allowance:

The pending claims are drawn to arrays, and methods comprising hybridization to an array, wherein the array comprises a plurality of nucleic acid probes. The plurality of probes comprises each of the sequences of SEQ ID NO: 1-699,466. Furthermore the probes of the array consist of the 25mer sequences of SEQ ID NO: 1-699,466. As such the array comprises each of the specific probes identified as SEQ ID NOs: 1-699,466. The claims are allowable over the prior art because while the prior art teaches sequence aspects of the rat genome, the prior art does not teach or fairly suggest a collection of 25mer nucleic acid probes identified as SEQ ID NO: 1-699,466.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
